

Level 1 Olive Oil Packaging

BUDGET, ENTRY LEVEL PACKAGING.

- Vacuum assisted, self levelling filler.
- Security sealing of pre-threaded aluminium screw caps.
- Hand operated, front and back label application.

VACUUM ASSISTED, SELF LEVELLING FILLER

Bench mounted filler suitable for olive oil. Ideal for smaller production runs. Requires single phase power supply. Height adjustable to suit different bottles.

SECURITY SEAL FOR PRE THREADED CAPS

This is a hand operated crimper that is used to crimp the pilfer seal in PRE threaded caps. (Pre threaded caps are first applied by hand)

HAND LABELLER

This is a cost effective hand operated, manual labelling machine. It will apply one label or a front and a back from the same roll.

Approx production output is 200 bottles per hour.
