

Level 2 Olive Oil Packaging

FOR MEDIUM VOLUME PACKAGING.

- Vacuum assisted, self levelling filler.
- Semi-Automatic sealing of aluminium screw caps.
- Semi-Automatic, front and back label application.

FILLER

This vacuum filler is specially designed for filling olive oil. It is suitable for 375ml – 1500ml bottles. Fast filling rate. No product pump required as the machine will draw the oil up from a container at floor level.

CAPPER

This semi auto capping machine is used to apply aluminium caps with or without pourers to glass bottles with the same precision as a fully automatic machine. Height adjustment is carried out very easily. Suits most 750 ml bottles within 30mm. Half bottle spacer available on request.

LABELLER

This semi automatic labeller will automatically apply one label or a front and back label off the same roll. Other models are available for square bottles. Approx production output is 600 bottles per hour

ALL MACHINES OPERATE ON SINGLE PHASE POWER.
